ABOUT MYSELF

Dynamic Project Manager and Web Developer with a strong track record of delivering high-quality digital projects. I specialize in leading teams to successfully execute complex web development initiatives, ensuring on-time delivery and exceptional performance. With a deep understanding of both front-end and back-end technologies, I create robust, scalable solutions that drive business growth. My passion for technology and commitment to excellence make me a valuable asset in any fast-paced, innovative environment.

WORK EXPERIENCE

Web Development Manager (Remote)

Absinthe Softwares [04/2024 – 07/2024]

City: Texas | **Country:** United States

As a Web Development Manager at Absinthe Softwares, I oversee the planning, development, and execution of web projects. My role involves managing a team of developers, ensuring project deadlines are met, and maintaining high standards of quality and performance across all web initiatives. As a Web Development Manager at Absinthe Softwares, I oversee the planning, development, and execution of web projects. My role involves managing a team of developers, ensuring project deadlines are met, and maintaining high standards of quality and performance across all web initiatives.

Project Manager

GAP Dynamics [03/2022 – 04/2024]

City: Islamabad | **Country:** Pakistan

As a Project Manager and PMO Lead, I drive project excellence by integrating strategic leadership with operational expertise. I lead cross-functional Agile teams, develop and manage detailed project plans, and ensure successful delivery by monitoring progress, managing risks, and optimizing resources. I implement Agile methodologies, oversee project budgets, and provide strategic direction to achieve organizational goals and maintain high standards of quality and performance.

Project Coordinator

GAP Dynamics [06/2021 – 02/2022]

City: Islamabad | **Country:** Pakistan

Led the planning and execution of projects, ensuring timely delivery and adherence to Agile methodologies. Managed a Scrum team, guided blockchain project scope, and integrated design, frontend, and backend discussions. Developed and tracked detailed project plans, managed scope changes, and utilized tools to measure performance. Orchestrated Agile ceremonies, ensured adherence to Scrum practices, and oversaw the Project Management Office (PMO) to optimize resources, manage costs, and enhance communication. Successfully executed impactful projects with strategic oversight and comprehensive management.

Associate Project Coordinator

GAP Dynamics [01/2021 – 05/2021]

City: Islamabad | **Country:** Pakistan

Developed and managed detailed project plans, ensuring timely implementation and delivery. Coordinated with team members, tracked project progress, and communicated effectively with clients to align on requirements and updates. Oversaw project schedules, budgets, and documentation, addressed risks and issues, and prepared comprehensive status reports for senior leadership. Facilitated cross-functional collaboration and conducted regular meetings to monitor progress and resolve potential challenges.

DevOps Engineer

GAP Dynamics [06/2020 – 12/2020]

City: Islamabad | **Country:** Pakistan

As a DevOps Engineer, I built an outstanding and dynamic team, which significantly boosted the organization's overall success. I had been training and mentoring DevOps engineers, teaching DevOps skills, and working to improve overall team performance. I had been gathering and defining customer requirements to develop clear specifications for creating well-organized project plans and estimations I had been working with project managers, software engineers, quality assurance engineers, and customers to resolve technical issues. I had revised, modularized, and updated old infrastructure to modern standards, reducing operating costs by up to 50%

Software Engineer

GAP Dynamics [09/2019 – 05/2020]

City: Islamabad | Country: Pakistan

During my tenure as a Software Engineer at GAP Dynamics, my primary focus revolved around data scraping and storage. I undertook the responsibility of gathering data from various sources and efficiently storing it in different data stores. Through my expertise in web scraping techniques, I successfully retrieved and processed data, ensuring its accuracy and integrity. Additionally, I played a key role in developing Microservices APIs to provide seamless access to the stored data, empowering stakeholders to make informed decisions.

Intern Software Engineer

GAP Dynamics [03/2019 – 09/2019]

City: Islamabad | Country: Pakistan

Confirmed that completed software met client requirements. Completed maintenance on existing programs. Worked closely with product team on scope of future projects and innovations. Engineered modern applications with Java, JavaScript, SQL Server, and No SQL.

EDUCATION AND TRAINING

Master's in Computer Sciences

Sarhad University of Science & Information Technology [03/2018 – 04/2020]

City: Peshawar | Country: Pakistan

Bachelors in Computer Sciences

University of the Punjab [05/2015 – 08/2017]

City: Lahore | Country: Pakistan

We Care Clinic

Tools: HTML, CSS, Bootstrap, Wordpress

As part of this project, I was responsible for developing and maintaining the website using html, css, material UI and bootstrap as web development technology. My responsibilities included designing and implementing new features, updating existing pages, and ensuring that the website was responsive and mobile-friendly. Additionally, I worked closely with the we care clinic team to ensure that the website was secure, fast-loading, and met all of their business requirements. Overall, I am proud to have contributed to the success of we care clinic's webstore and look forward to continuing to work with them on future projects.

Prestige Furnishings

Tools: HTML, CSS, Bootstrap, jQuery, MySQL, Laravel, Plesk

Dedicated to providing a first class service from innovation and sourcing to delivery and competitive prices. Our versatile and innovative approach to correct product identification provides our customers with a satisfaction guarantee that we can provide anything from a full room solution to those smaller necessities like knobs and handles, mirrors, pictures and mouldings. Our ability to provide high quality striking furniture required, ensures that we have a customer base who lead the market in design and quality.

Smart Taps

Tools: Next Js, Node Js, PostgreSQL, EC2, Wordpress, MySQL, Stripe

Smart Taps redefines how individuals and businesses connect by integrating cutting-edge technology with sustainable solutions for an elevated networking experience. Our mission is to enhance productivity, efficiency, and profitability while addressing the climate challenges of today and tomorrow. At Smart Taps, we are committed to promoting eco-friendly practices for a more sustainable future.

Codefest

Tools: React, Next, Node, MySQL, AWS, GitHub Actions (CI) & AWS CodePipeline (CD)

Codefest is an innovative online coding platform that brings together a community of passionate developers and coding enthusiasts. With a mission to promote collaboration, learning, and creativity, Codefest hosts regular coding competitions, hackathons, and coding challenges. Participants have the opportunity to showcase their skills, solve real-world problems, and compete for exciting prizes.
